Water shortage has been a serious problem for many years and

---

causes various crises. The land is crushing, overusing the  
has caused being crushed by overuse of

---

underground water, and many people can't get enough water, swarming  
can't

---

the water cart like thirsty animals. All of these sounds horrible.  
carts this

---

Climate change, the biggest cause of environmental problems. Earth  
change ^ is

---

has become hotter and hotter these years, and the climate  
been getting ^ in recent

---

is getting extremely hot. No typhoons, less  
becoming The absence of typhoons and reduced

---

rain, both of them cause water shortages. All in all, the problem  
rainfall contribute to problems

---

above is all because of yourself, and the only solution is  
^ mentioned are ourselves,

---

also to attend to us. From now on, save water whenever  
in our hands. ^ let's

---

possible, enhance education, and cherish our mother earth. I hope the

---

world will be better.
